What do the Colors Mean?

- Red** – Outline of Hanging Nets
- Blue** – Track Perimeter
- White** – Track Surface
- Green** – Batting Cages
- Gray** – Turf Area

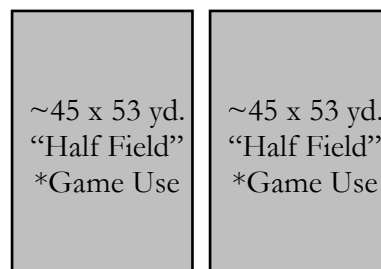

Hanging nets will protect the perimeter of the “Full Field” (AB) from the track (1 & 2) and batting cage area (4). In addition, the turf field can be subdivided into three sections for practice/training purposes (Marked in Purple...C, D, and E). Those subdivisions will allow several activities to occur simultaneously – golfers hitting off of nets will not disturb pitchers & catchers who will not bother QB's and receivers, etc.

Turf can be used as –

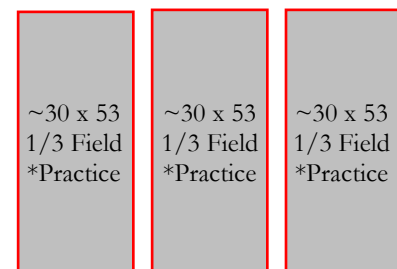

This,

Or...this,

Or...this.

And those turf sections can be used without infringing on batting cages, track usage, or field event spaces.
